

Mācību priekšmets: Dizaina zīmējums

Tēma: figūru skices

Datums	Klase	Uzdevums	Materiāli	Paraugs			
27.01.	Dizaina zīmējums	Cilvēka figūru kustību skices no dabas. Skicējam shematiski un nosacīti. Svarīgi saglabāt auguma proporcijas un viduslīniju.	Skičpapīrs, mīksts zīmulis	1	draw lines at the outer edges of where you want your figure to be. Then draw a line half way between the two. This will be the mid-point for your figure.		
				2	draw a simple gesture to establish the shape the figure is making		
				3	use a flexible rectangle to draw the torso around the ribcage (includes ribs, collar bones, shoulder). Use similar technique to show where the hips are.		
				4	locate legs, arms, neck pay attention to important intersections and joints. What important skeletal/structural elements are you seeing?		
				5	look for shadows see how they define big muscle groups, important skeletal elements and create a sense of three dimensional space
